

Airport Charge Rates

Charge rates for Airports which have engaged Avdata Australia to collect charges, as at 18 January, 2012. The charges listed below apply to normal movements and are expressed as \$/1000kg unless otherwise noted. The normal charge is determined by multiplying the certified maximum take-off weight of an aircraft by the charge rate on a pro-rata basis; and normally a minimum charge equivalent to that for 1 tonne applies.

While we endeavour to keep this page current, Avdata accepts no responsibility for the accuracy, correctness, or timeliness of these charge rates. Parties who rely upon these charge rates do so at their own risk, actual rates should be checked with the owner of each facility.

These rates are expressed exclusive of GST; 10% GST applies in addition to the rates shown.

YMAY	Albury	\$10.27	YPGV	Gove	\$15.00
YBAS	Alice Springs	\$21.63	YGFN	Grafton	\$11.36, minimum \$13.64
